-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. Claims 13, 14, 16 to 18, 20, 23 and 24 are rejected under 35 U.S.C. 102(b) as being anticipated by Birdsall et al.

This rejection is consistent with the rejection made in the previous office action. The only difference between the instant claims and those originally claimed is that b as claimed must be between .25 and .45. However Birdsall et al. show resins having such a " b " value, note the various resins prepared in the examples. Thus these claims are anticipated by Birdsall et al.

3. Claims 13 to 18, 20, 23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Birdsall et al.

Birdsall et al. teach on column 3 that the amount of unsaturated groups can be adjusted to modify the hardness of the resulting product. Thus one having ordinary skill in the art would have been motivated by the teachings of Birdsall et al. to adjust the amount of alkenyl groups in the phenyl containing silicone in an effort to optimize results. In this manner the skilled artisan would have found the instant claims to have been obvious.

With regards to the refractive index limitation of claim 15, the Examiner relies on the rationale detailed in the previous office action, as it applied to claim 3.

4. Claim 10 is objected to because of the following informalities: This claim refers to "a cured product according to claim 1", but claim 1 is not drawn to a cured product. Appropriate correction is required.

5. Claims 1 to 8, 11 and 12 are allowed for reasons of record.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret G. Moore whose telephone number is 703-308-4334.
